

COMPETITION RULES

Members will be accepted into competitions provided they have submitted their entry form and total entrance fee to the Competition Secretary by the due date indicated on the entry form. Forms submitted without the fees will not be accepted into the draw.

When the draw is made for pairs or triples competitions there may be an excess of competitors. These competitors will be the only valid reserves, and will be selected by ballot. Should a valid reserve not be available, a team requiring a reserve during the competition will forfeit their game.

The first named player (**THE CHALLENGER**) shall offer **THREE** dates to the opponent at least 10 days before close of round, one of which must be a weekend(No National or County competition dates to be given). The opponent must accept one of the offered dates within 48 hours, and this will be the appointed date. If a date cannot be agreed the Challenger is entitled to claim the game. If the Challenger has not offered **THREE** dates to the Opponent by the start of the 10 day period then the Opponent becomes the Challenger and need only offer **ONE** date and if this is not accepted the game can be claimed. A game is claimed by entering your name into the next round.

If any games are not completed or claimed as described in **RULE 3** by the expiry date of the round, both competitors will be eliminated. The contestant awaiting the result of any such game will progress through to the next round.

All **FINALS** must be played on Finals Weekend, and players must be available to play their games on either day without exception.

Finals Weekend is 12th/13th September 2020.

Any disagreement in respect of fulfilling matches or of interpretation of the rules is to be referred to the Competition Secretary whose decision will be final.

Expiry dates for each round will be published on the draw sheets displayed in the pavilion.
